

OUTILLAGE NÉCESSAIRE

FORÊT À MÉTAUX | pour les montants
MÈCHE À BÉTON | Selon maçonnerie

NOMBRE DE PERSONNES CONSEILLÉES : 2

Mesurez la largeur et la hauteur précises entre les murs. Nous vous conseillons de prendre la largeur à 3 endroits différents (et reporter la plus petite largeur). Reporter dans le cadre ci-dessous :

HAUTEUR : mm
LARGEUR : mm

Présenter les trois montants à la maçonnerie, tracer les trous de fixation à l'aide d'un crayon.
Retirer les montants, percer et insérer les chevilles.
